

K-love radio station on 91.1 in Denver, has been heaven sent. It has helped my 5 children stay away from drugs, and be more understanding and caring of others. I believe, as a teacher in our public schools, the children who listen to K-love, are more focused. I know of several instances where kids have NOT hurt themselves because of K-Love's music and the message that they send. Especially in this day of more violence on TV and in video games, and difficult economic times, we need to promote God's love not threaten it's existence. Please help us keep the message going sending hope to all, of every age. People need hope!
